oh yea good point, it probably was just adalberto first. I'm wondering if there is more to the SOW than I'm seeing. I remember that day Irene sent out 3 emails, one being a mistake and asking us to delete it, but now I just have 2 emails with the same document. Did you happen to see if the original message had something that we actually needed?

I think Adalberto is in an acting management position or something right now. So he may have been the original RPM, but I thought it was definitely Denise now. She isn't very responsive in general, she works from home sometimes, not sure if her contact info is on her voicemail or anything.

Hey,

did you notice in the SOW that Adalberto is listed at the RPM and not Denise Zeno. I wrote Denise asking her if she is still the RPM, but I haven't heard back. I also am not sure if they want us to comment on the SOW because so far they have just sent section 4/tables/figures. Section 4 is mainly discussing administrative procedures and the tables/figures are what we've seen already during the meeting. Does Denise only work part time? I don't ever really hear back from her.
